

# *Review/Revision – IGOS-P Ocean Theme Report*

- **IGOS-P calls for five year rolling review of its Theme documents**
- **Ocean Theme was the first IGOS-P Theme and is the first to be “RR’d”**
- **Review co-chairs Paul Digiacomo & Keith Alverson**

# *The Review Team*

## ***Co-Chairs:***

**\*Keith Alverson, IOC/GOOS**

**\*Paul DiGiacomo, NASA/JPL,**

**Eric Bayler, NOAA/NESDIS**

**Mary-Elena Carr, NASA/JPL/NSF**

**Mark Drinkwater, ESA**

**Albert Fischer, OOPC/JCOMM**

**Ed Harrison, OOPC**

**Pierre-Yves LeTraon, IFREMER/SCOR**

**Hiroshi Murakami, JAXA**

**w. Support from Many Others**

# *Review Timeline*

**Nov 05** Detailed outline by IGOS-P, presentation at the IGOS-P meeting

Jan 06 Initial homework assignments due by end of month (27 Jan)

Feb 06 Release Draft V.0

Mar 06 Homework assignment #2: Comments on Draft V.0

Apr 06 Draft V.1 due 2 weeks prior to team meeting

Apr 06 Ocean rolling review team meeting                      Complete Draft V.2

May 06 IGOS-P13 meeting end of month: Update on progress

**Jul 06** Complete Draft V.3

Jul-Aug 06              Targeted community input on V.3

Sep 06 'open' Editors meeting September 5-7 at JPL

Oct 06 Final working Draft V.4 completed

Oct 06 Present V.4 to SCOR programs meeting (Concepcion, Chile)

Nov 06 Present V. 4 to IGOS-P14 (Buenos Aires?)

**Dec 06** Publication Draft V.5

# ***Table of Contents***

## ***Ocean Theme Report II***

- **1. Motivation**
- **2. Ocean Obs for Societal Benefits**
- **3. Accomplishments since first report**
- **4. Challenges and Recommendations**
- **5. Implementation**
- **6. Conclusions**

# ***IGOS Ocean Theme (Version 2 - 26 April 2006)***

## **Table of Contents**

<b>1.</b>	<b><i>Motivation</i></b>	<b>2</b>
<b>2.</b>	<b><i>Ocean Observations for Societal Benefits</i></b>	<b>3</b>
2.1.	Oceans in the Earth System	3
2.2.	Ocean Observations in an International Context	
2.3.	Societal Benefits from Ocean Observations	4
2.4.	User Requirements	5
2.5.	System Approach	5

**3. *Accomplishments of the past five years – the state of the ocean observing system in 2006* 6**

- 3.1. In-situ observations 6**
- 3.1.1. In Situ Challenges 8**
- 3.2. Satellite observations 9**
- 3.2.1. Continuity Challenges 9**
- 3.2.2. Knowledge Challenges 11**
- 3.3. Data syntheses 13**
- 3.4. Needs 14**

**4. *Challenges and Recommendations* 15**

- 4.1. Challenges 15**
- 4.1.1. Continuity 15**
- 4.1.2. Knowledge 16**
- 4.1.3. Resolution/Coverage 17**
- 4.1.4. Integration 17**
- 4.2. Recommended Priorities 19**
- 4.2.1. Satellite and In-Situ 19**
- 4.2.2. Integration and Synthesis 19**

## **5. Implementation 21**

- 5.1. Past Impacts of the ocean theme 21**
- 5.2. Implementation Strategies 21**
  - 5.2.1. Linkages with other IGOS themes and GEOSS 21
  - 5.2.2. Calls for action 25
- 5.3. Implementation Tactics and Near-term milestones 26**
- 5.4. in next five years. by somebody 27**
- 5.4 Implementation Pitfalls to avoid 28**

## **6. Conclusions 28**

## **7. List of Figures 28**

8.	<b><i>Nuggets</i></b>	29
8.1.	The Global Ocean Data Assimilation Experiment GODAE	29
8.2.	Sea Level Monitoring	29
9.	<b><i>Appendices:</i></b>	30
9.1.	Table of satellite launches and planned launches	30
9.2.	table of in-situ measurements 2000 to 2010	31
9.3.	Table of Acronyms and Websites cited in text	31
10.	<b><i>Review Timeline</i></b>	32
11.	<b><i>The Team</i></b>	32
12.	<b><i>Actions</i></b>	32
13.	<b><i>Extraneous notes:</i></b>	33
